Issue 3 is now out, F**king Hardwork. Thanks to everybody in helping us produce this magazine - contributors, advertisers, but most of all you the Raver - Thank you! We will get bigger and stronger like no other as time passes. This magazine is suppose to be out every 3 weeks, so far its been every 4 - sorry. No longer will we piss you around - it will be every 3 weeks as we have sorted out all the problems - hopefully. Our aim is to become 40 pages and to be in full colour. We will achieve it with your support. If you have any comments about improving this magazine or if there is anything you don't like, phone us or write to us, because at the end of the day this magazine is to supply you with all the information that you need to know about raving. The next issue will be out on Wednesday the 23rd September without fail. I know its 3½ weeks but this is only so we can move the issues coming out on to a Wednesday and have it in all the Record Shops by the Weekend.

Thank you everybody ~ We are here to STAY!!

LOONY COUNCIL

Bedford County Council are organising their own rave event. On the 12th July 92 they cancelled Worship, which was due to take place in Bedford, right at the last minute. Now they realise they were wrong and that there is a demand for raves in this area. So what they did was to contact Claudine of Montule Promotions - the original promoter of Worship - and offered her the position of organising the event. Firstly they said they were aiming at around 300 people - wanking !!! Now it's been changed to 3000 people and Claudine has been given a budget to stage the event. The rave is due to take place at the Buniun Centre, Bedford and we are told it may have a 10am license - thats if the council can get it. They probably won't realise they are suppose to grant it !!!

VOX VAT

The Vox in Brixton has been shut by the V.A.T men due to none return of the relevant taxes it is believed. This popular venue for South London ravers will be greatly missed. It has been said that the Vox was one of the best venues in London Town. Never mind maybe it will re-open again some day...

FLOP

The recent Raindance event held in a Spanish Bull Ring was only attended by 2000 people. This resulted in Raindance making a loss of around £100,000. This is a shame as it was a blinding event with no restrictions on sound levels. We are sure their next event in this country will be as good as usual. Watch out for it !!!

MEMORY LAPSE

Every Friday everybody seems to have a memory lapse regards a certain venue known as the BassBox. Why ??? Every Saturday the place is rockin', but on Fridays when the music is equally as good and it only costs £2 to get in, there are not as many people as on the Saturdays. Don't forget any more - go and give it a go....

LAMBERT

Leas Cliff Hall, Folkestone will never stage a rave again. This is due to Dave 'The Blag' Lambert who was the license holder for the venue. First he ruined the Rave World event by not telling the promoters that the council were unhappy with the flyer until the last minute. Which resulted in the event being postponed. Then on the 1/8/92 Phase 1 booked the hall with Dave Lambert. Dave then set up the sound system on the day for Phase 1 and he placed some speakers on a balcony. This was due to the fact that Lambert had promised a second room for Phase 1, which he let them down on thus putting the speakers on the balcony. This idea of Lamberts was stupid, as opposite the balcony there is an old peoples home with 200 people fast asleep. Within 10 minutes of the event starting there was 16 complaints from local residents. By the time the problem had been sorted out - it was too late, the damage had been done. What a plonker - who in their right mind would set speakers up in this way. If anybody knows where Dave Lambert is, please let us know - he owes people money...

SUNRISE 31/10/92

Sunrise will be back for sure on the 31/10/92 for a halloween party. The venue is still being sorted out as you read. Now you know **THEY WILL BE BACK FOR SURE - YOU READ IT FIRST IN BLAZE !!!**

THE ENERGY EP

SHADES OF RHYTHM

Shades Of Rhythm's new record has been withdrawn due to the use of an unauthorised sample or samples within the chewn. For anybody who went down to Elevation on the 21st August hoping to see them, they would like to appologise and so would the Elevation Promoters. Unfortunately they were tied up in the studio re-producing the chewn !!!

PARLIMENT MUSIC

The Parliment empire was first set up in the summer of '89 in a shop in Hertford by a man called Rob Haigh. It has now grown to be one of the most succesful vinyl pushers in Hertfordshire. The organisation specialises mainly in hardcore house, techno, ragga and rave chewns. From the first shop they have now expanded to Hitchin and into further depths of the rave scene in the form of producing their own material with class artists.

In both shops you can find many white labels, promos and imports. They can sell you via, top local DJ's, including DJ Rhodes K, DJ Syko, Splice, DJ Rich T and DJ Disniy exclusive products at a price thats right.

In March '92 Parliment Music broke it's mould of just a record shop by branching in to producing their own chewns. The label was named Discography PMT and have produced some blinding vinyl to date. So far their

portfolio includes ;

Rhodes K & Splice	-	Fuck It Up EP
Syko & Mak	-	Murda EP
DBL Productions	-	Nature of the Bass EP
Syko & Mak	-	Homicide EP
DBL Productions	-	PM Remix EP

This label is attempting to produce and encourage a variety of styles from Jungle/drum and bass to garage/progressive and acid.

Parliment also run their own studio under the name of Splice of Life where they can produce their chewns. The studio is

also hired out to budding new artists complete with two DJ's and producers to originate, mix and produce your chewns.

Dr S. Gachet has worked his way up over the years. He first used to be partners with PigBag - but then out shone him and moved onto better things. We caught up with the mystery man in his Audiomaize and we had to ask him ;

How did you get your DJ name ?

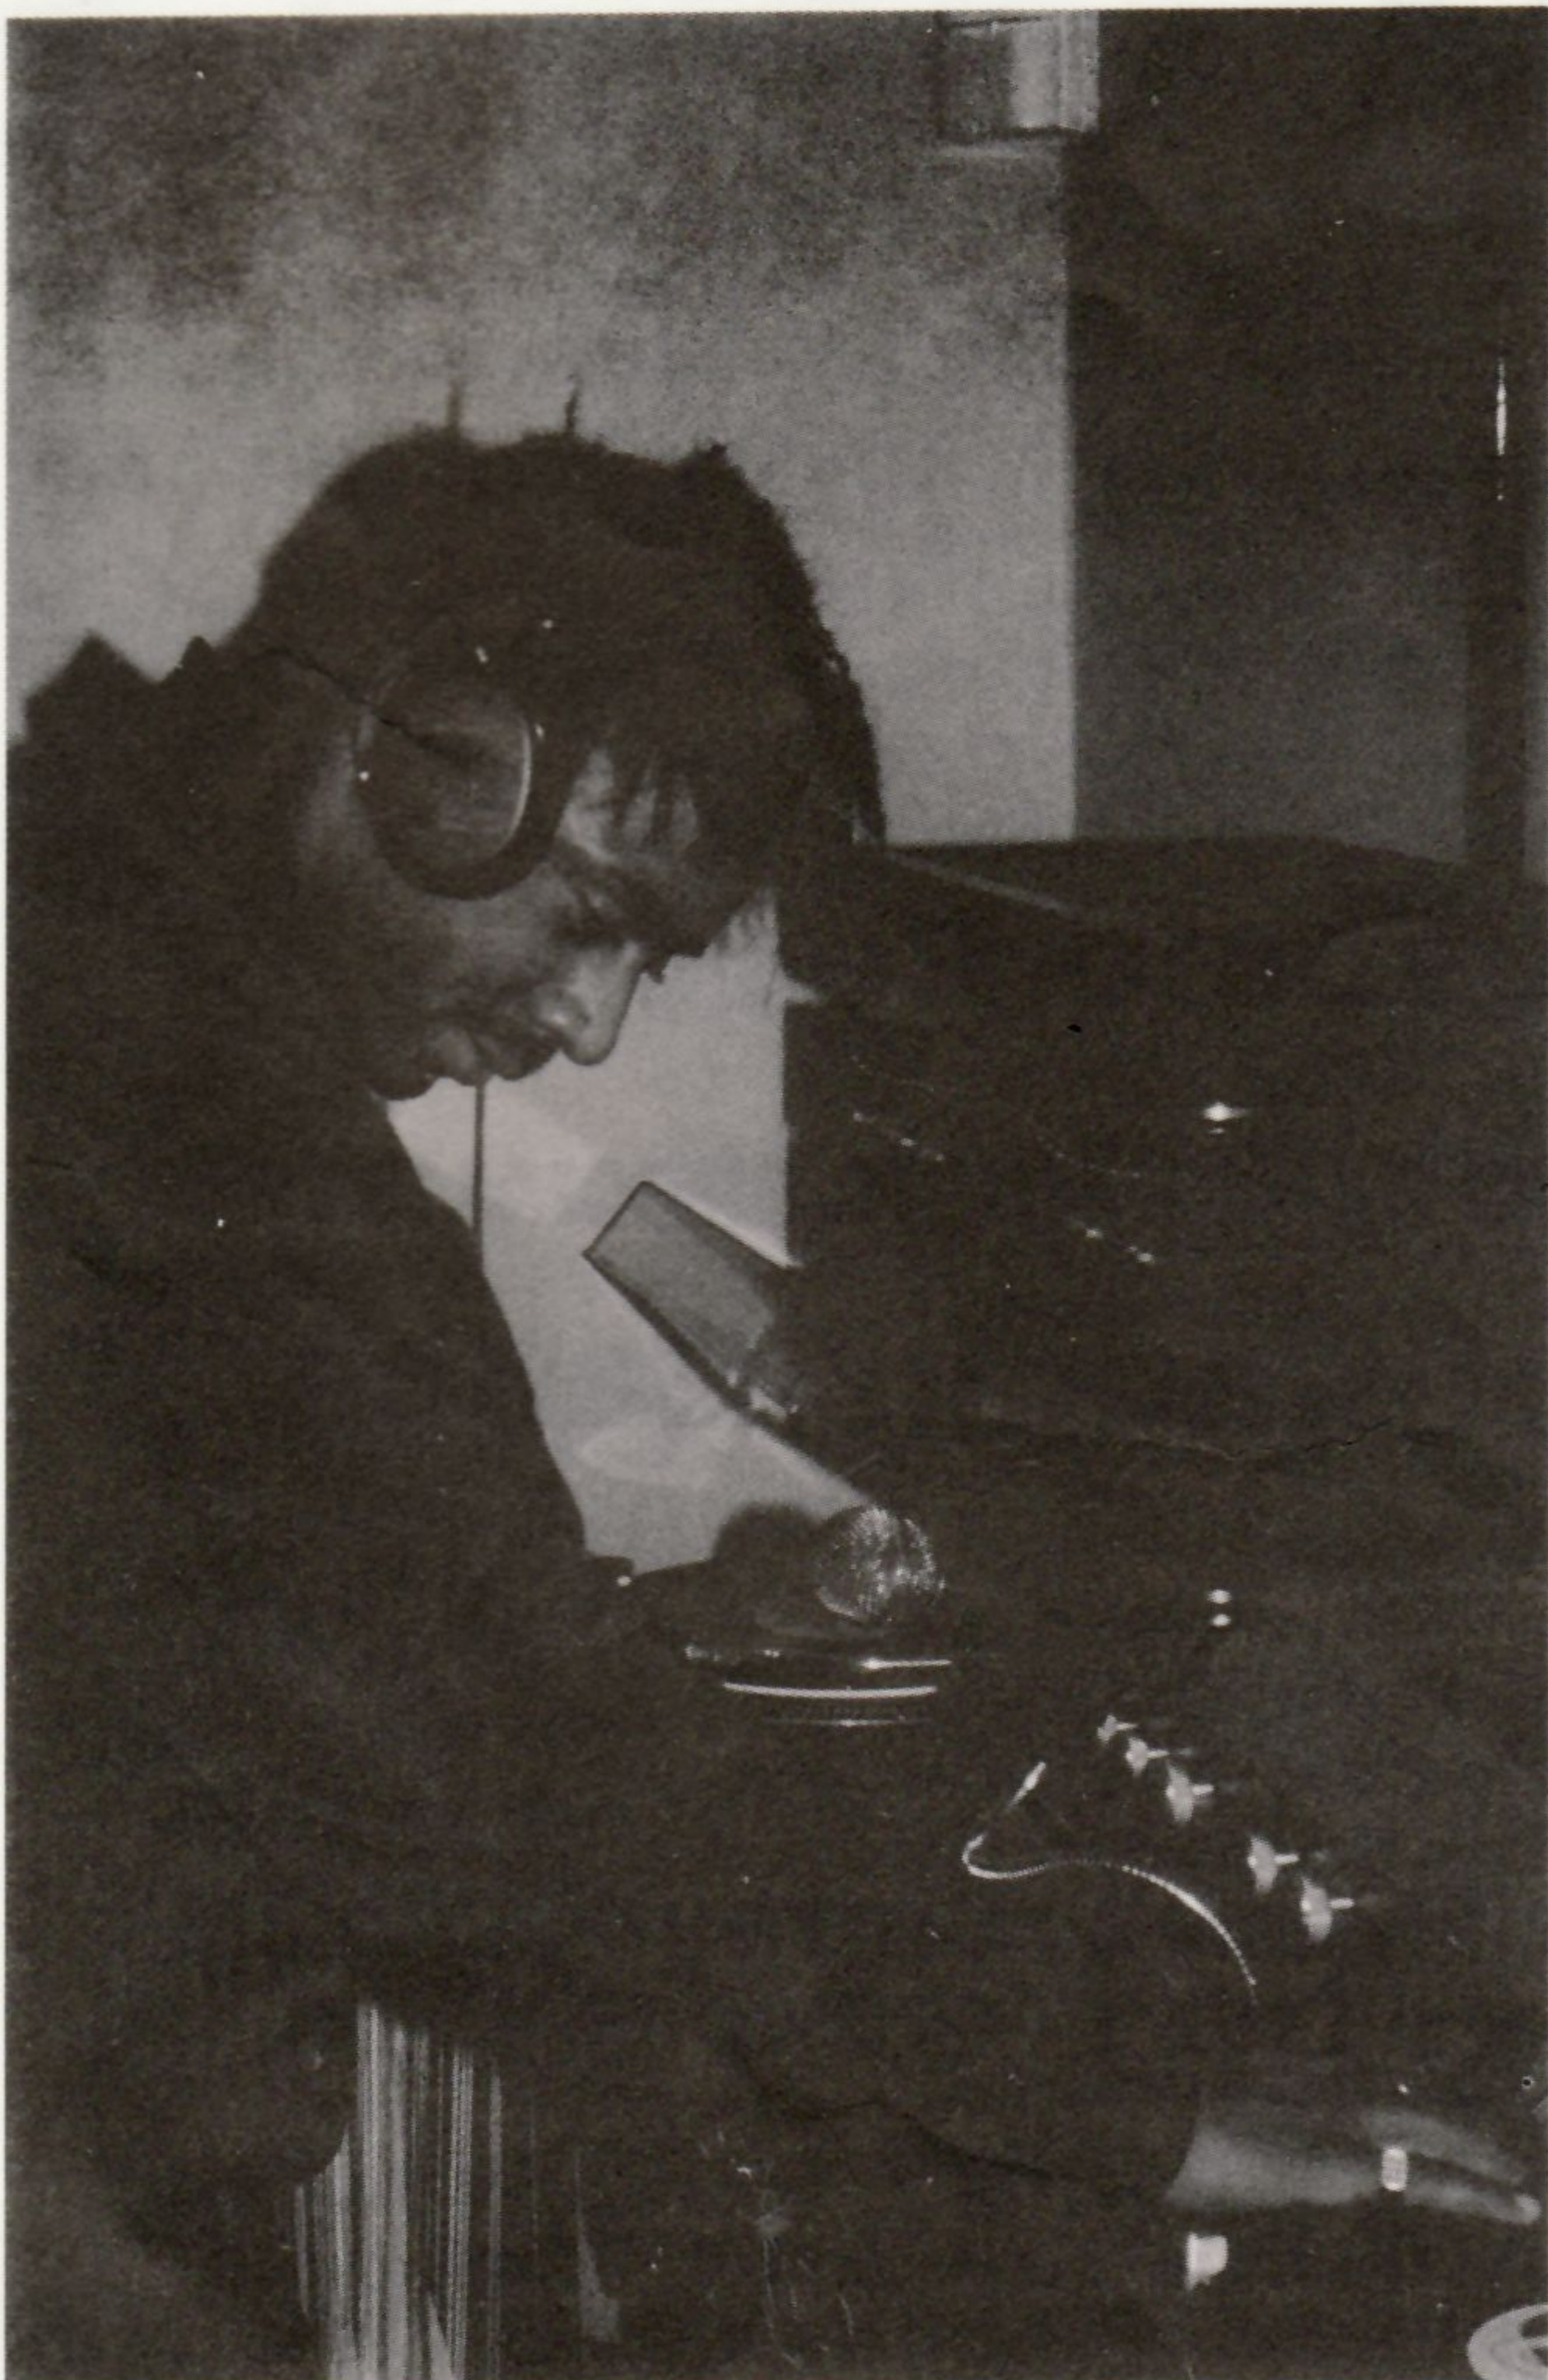

Well I wanted a name that once you hear it you never forget it. It is a french name, but alot of people forget to put the accent over the E. Many people think that I got the name from the painting Dr Gachet that was sold for £82 million, I didn't - Gachet means Trig of a Gun. Everyone kept saying to me I was too fast, so I thought Gachet fits. Basically everyone is calling themselves DJ that, DJ this & DJ whatever, it's too boring so instead - DOCTOR!! I'am doctor of my field so I am Dr S Gachet the Vinocologist - I hit a different angle.

So what is your real name ?

Thats confiedential !!!

What did you do before becoming a DJ ?

When I first left school I became a qualified carpenter, qualified electrician and qualified alarm engineer. Then I became involved in music by way of having my own sound sytem.

DR. S. GACHET

THE

VINOCCOLOGIST

So how long have you been a DJ ?

Well on the rave scene I've been DJing about 5 years. I got made redundant and then decided to take it up seriously 3 & half years ago. I did also DJ things like Jazz/Funk. When I first started I also done my own MCing over chewns I spun.

When did you get your first big break ?

Basically some guy said to me & PigBag that a club on Bognor pier needed some security. So we went down there and took some records aswell. When there, we got hold of the promoter and said we where DJ's from London blah, blah, blag. So we said to him give us like half an hour each on the deks - we can do it - and we kept hammering him. He gave us a go and we done the business. That was it - we had our first real break. Promoters today don't care how good you are, it's your name that counts to draw the crowd, so it is hard to get your break.

Do you ever knock jobs now ?

No, if I've got a booking with a promoter for a time - I'm always there.

Where's the best place you've ever played ?

A Swing rave over in Reading. There's only about 2500 - 3000 people, but the atmosphere is like 15000. When you say show respect and all that business it nearly knocks you over. It's the only place that I have ever played at that I shake.

How many records do you take with you when your going to do a set at a rave ?

I take around 250 - 300 records. This is because I don't want to play the same records as the DJ before me. So what I do, if I can I try to turn up an hour before to listen to what has been already played and then play different music so the ravers don't get fed up with the same old records.

Can you see garage music, which is becoming more noticeably popular taking over totally?

I can't see garage taking over, because garage is like hardcore dance music, but the B.P.M. are a lot slower. If you listen to garage they are taking some of the same samples away from hardcore trax but slowing it down. Instead of 140 B.P.M. it might only be 90. I would say it is still the same sort of music.

What do you think of it up North?

I like it, I prefer playing out of London. I think the London crowd is spoilt and they don't appreciate the music or DJ's as much.

How do you see the rave scene going?

People say that it's dying, I personally don't believe it's dying, it's getting bigger and better because the music is progressing. Before it was like acid and there was selective people in that, it was too heavy for most of the people. Now it's turning into like hardcore dance music and Kiss FM, even though it is a commercial rave station, has helped the rave scene a hell of a lot because it's introduced a lot of new blood on the scene.

What does the future hold for you?

Well I always want to carry on DJing. I also want to get into the record business, remixing peoples records and producing my own material. I want to DJ in America - I want to show them how it is done. Personally I don't think the Americans can mix, I don't rate them.

WE WOULD LIKE TO WISH GACHET ALL THE BEST IN THE FUTURE AND KEEP YOUR EARS OPEN FOR HIM DOWN A.W.O.L ON SATURDAY NIGHTS - ONE OF THE BEST !!!

UNDERGROUND

Friday 4th September sees the second stage in a series of Mystical Events brought to you by Delirium + Rave In Peace.

Part 1 took place on Friday 17th July & saw a thousand ravers from all over London, Essex & Kent descend on Brands Hatch for what promised to be the party of all parties. Unfortunately a confusion between the Essex Authorities & police led to the arrest of 2 members of the organisation. By the time the problem had been sorted out, the entire operation was 2 hours behind schedule. However the organisers were not deterred by this and were rushing around frantically with the generator and sound system on the back of a truck.

By now hundreds of vehicles were converging on the various meeting points where they were directed over the Dartford Crossing into the heart of Kent. Due to the delay & the secrecy of the venue, the sound system was not met on time & was waiting 400 yards from the site. Meanwhile the generator was sitting patiently on the site ready to power the lights in a derelict barn. By now the Kent police were hot on the trail & arrived at the site threatening to confiscate the generator and lighting equipment unless it was moved out of Kent. Just down the road a roadblock was set up to stop the hardcore masses arriving on site. However **HARDCORE RAVERS** as we all know are not deterred easily & began to assemble at a nearby petrol station. The organisers keen not to disappoint began directing cars back through the Dartford Tunnel to the Granada Services. The generator was given a police escort to the Dartford Tunnel. There were still 200+ cars on the trail at the Granada Services, & after a series of phone calls another venue was found & the sound system & generator set off for Canvey Island followed after a ten minute interval by a number of small convoys. Unbeknown to the organisers the police had planted their own **RAVERS** at the Granada Services to find out the destination at Canvey, & as the sound system & generator arrived at the new venue at 2.30am 2 police cars pulled up behind them. Once again the sound system was threatened with confiscation & was escorted out of the county by Essex police. After many phone calls trying to organise another sound system & venue it was decided that no more could be done at 3.30am

Respect to the **TRUE HARDCORE RAVERS** who stuck it out till the bitter end & to the bod who offered the use of his flat at the end, nice touch mate.

Disrespect to moody authorities & grumpy security guards, & to Dartford Toll booths, Joe in the BP garage, cellnet + vodaphone for being the only people to have a result that night.

Delirium + Rave In Peace will be back by popular demand Friday 4th September, armed with 2 sound systems, 2 generators & 2 back up venues (one legal just in case).

Remember

We'll **RAVE** on a Friday when the sky turns black,
It's hard to rave with the old bill on your back,
They can confiscate our systems, they can move us along,
But we are the **HARDCORE** & we will **RAVE ON !!!**

**VOLATILE STATE 7/8/92
TASCO WAREHOUSE**

We went on a search, the Purple Posse search to find Toby - The Invisible Tap Dancing Turtle. We asked The Wickey-Wickey Chick-Chickers in the mother bubble, DJ Noise, SI-C, Devious D, The Criminal, etc. But to no avail. We also asked Technician II, who had just done a kickin' PA. But all they had seen was a scratch 'n' sniff smoking strawberry and a singing (Toot - Toot) kettle !! We asked the Wobbly-mashed potatoe heads, no joy. I began to think he must have stayed at home with all the other Bambrain Exports ! Oh, well, let me tell you what a good night you missed - it was un-be-f**king-lievable ! A blinding line up of DJ's, excellent hardcore dancers (hiya Ann-sorry about the photo) and a great, friendly atmosphere with everybody who was there totally mashed and having a totally F.A.B. time ! I was really looking forward to the 8th of August Volatile State at the Wax Club - but it was called off for some unknown reason. Come on guys - sort it out, Yeah ?

ECLIPSE 8/8/92 CAMBRIDGE

Well it didn't take Eclipse long to kick off in the usual way. The unique venue of the Corn Exchange, Cambridge was alive once again with some of the friendliest people around (no moodies). Around 11.30pm the roof lifted when the man like Gappa G ripped up some of the maddest trax around. The line up of top DJ's kept Eclipse kicking all the way to 6am. DJ's included Loft Groover, Shaggy & Breeze, Clark E, Ray Keith & Stuart Banks. Plus a live PA by the Rat Pack who were put on at a great time in the night. This monthly event has a great sound system backed by great lasers and visual displays. Respect goes out to the Cambridge ravers who created a great atmosphere through out the night. Watch out for the next event - not to be missed !!!

BASILDON FESTIVAL HALL**

We arrived early & watched as the crowds came in by the droves to give us a total of well over a thousand smiling faces. We were pleased to see the crowd worked to a frenzy with DJ's such as Buzz, DJ Randall, Rob Blake, Lloyd Anthony & Devious D. If this wasn't enough, then to see the crowd turned into wild animals by two excellent PA's Urban Hype and Prodigy. The whole evening was put together nicely by MC Chalkie White. More blinding backdrops, lights and lasers than I could care to mention. Plus a 60K sound system to blast yer brain away. Shame about Basildon Councils last minute decision to drop the license for the fun fair and Troubleby Andersons split decision pull out because he couldn't cope with us techno cabbage heads. Thanks to the promoters, John & Phil, for a blinding night of mish'n'mash - watch out for the next event possibly at North Weald Airport.

World Dance/Bliss have a habit of staging some of the best events ever to hit our shores. In our opinion this was one of the best. The venue was a massive aircraft hanger at Llyd International Airport. A perfect setting for an almost perfect rave - what happened to the sound ? Yet again the council ruin the night by measuring the sound. Is this because there was a house 10 miles away, and it may wake the pet kangaroo ?!? Never mind by 4am it went louder - then continued to get louder and louder when it counted.

The lights - BLINDING - there was more images created by the lasers than we could count. The production was striking. This aircraft hanger was not only transformed, but propelled to the heights of probably the BEST dance arena - or so thought the 7000 nut head ravers who were lucky enough to witness a top class DJ line up - Carl Cox sends his appologies. The fun fair was unfortunately cut short by an accident beyond anyones control - one in a million. Not only was there the aircraft hanger, but a massive tent blasting a mixture of chewns to delight everybody. The ravers where well controlled with seperate entrances and exits to avoid crushes etc. Anybody who missed this event - don't worry - we will all be lucky enough to be graced with part II in the early part of October. This time there will be no tent as this was the cause of the noise restriction ? Next time will be the real deal - ear bleed, f**k your head hardcore dance trax !!!

PEACE FEST 92 PART II LEICESTERSHIRE

Up on the edges of Leicestershire, a sound rang through the fields - it was the sound of a massive Dance Festival. Unfortunately the event started a little late, but this didn't dampen the atmosphere as the crowd were thrown into a mad frenzy by the Rat Pack. They were on top form as everybody sprang and danced 5 feet off the ground. The sound system was pumping - no council men with sound gauges hanging around for once - turn up the bass !! The music was a perfect combination of old and new blended together better than Nescafe. The lights shone brighter than the stars - even the sheep farmers could be forgiven for believing the second comin was upon us. The ravers danced and danced and danced. Even at 8.45am when Slipmatt ripped up the the chewns nobody could sit still, top DJ. The Dance Festivals will grow and grow as they become better and better. F**k the weather. Watch out for part III - maybe the biggest event ever ??

FANTAZIA 25/7/92 DONNINGTON

Have you seen my friend ? F**k me, was'nt there alot of people !! About 27,000 we are told. This massive event at Castle Donnington would have been brilliant had there been any music in the main arena.

Sorry there was music in the main arena we are told - we must be going deaf. To be fair to

Fantazia they put on a brilliant show and it's not there fault if the council only gives them a license

to go so loud. What can you expect with a massive arena.

This is probably the only thing we can fault the promoters on other than £1.50 for a half size bottle of water - the the proper way to mug someone. Most people enjoyed it with impressive production and a DJ line up who we all know can mix a chewn or two. There was plenty to do aswell as dance including watching fireworks or starring at a f**k-off dragon with a droopy head. The Fantazia Castle looked blinding, lighting the night sky for miles around. The security where safe and out of sight for most of the night. Watch out for the next event either in September for 15-20 thousand people somewhere in the South of England.

VINYL MELTDOWN

THE CHEWN REVIEW BY DJ MaRKie BoY

TOP MELTERS THIS ISSUE !!!

Awesome 3 - Don't Go Entity Promo 12"

You know when a chewn is so wicked, you have to play it over & over again! It blends your hardcore base & synth with wicked piano & vocals (I can't bear to see you leave me, I'm begging you don't go) superbly. A very classy chewn that will mash up your head.

Force Mass Motion - The Chase EP Rabbit City Promo

On Colin Faver's record label, it includes "Explosion", "VNE" & "Let It Move You" all on the hard 'n' heavy tip, & "I Dream Of You" which is more of a softer, mellow type chewn. A tough EP from one of the toughest labels around.

Acen - Trip To The Moon Pts 1+2

Production House

Unfortunately, this cannot be found on one piece of vinyl, but it's well worth getting both because they are both nutty. A fast jumping chewn, loads of base & vocal samples (I Can't Believe This Feeling). The vocal samples used are speeded up to the point where they start to sound like a chipmunk, & they even sample from their first 12" "Close Your Eyes"!

Nu-Matic - Spring In My Step XL

This is a complete mix of drum, base, synth, piano & classical music(?) all rolled into just over 5 minutes of total nuttiness. What more could you ask for?

Jude - Jude On A Ragga Tip White Label

Probably, the strangest mixture of beats & samples you ever likely to hear, using SL2's "On A Ragga Tip" &, believe it or not The Beatles classic (?) "Hey Jude" (If you can't remember it, ask your parents!)

Krome & Time Remixes Suburban Base

2 completely noisy chewns, "This Sound Is for the Underground", mixed by themselves & "Manic Stampede", which is mixed by DJ Hype. The original mixes are nutz as well.

The Rat Pack - Changing Styles EP

A blinding mixture of chewns including ragga style, breakbeat, ambient, piano hooklines & vocals. All blended into 4 excellent trax.

Bonehead EP

Plenty of vocals in some of the chewns including Looze Kontrol, Gotta Get Loose, Baby Let me Love Ya & A Little Bit. Bonehead certainly have put together a nice EP.

Aqua Fortis - House of Usher

This vinyl holds 4 terrifying chewns. 3 mixes of the House of Usher & a chill out track Asylum 3 the Way Out. All chewns pure to the core, hard 'n' raw.

Timelapse Out of Romford

4 blinding chewns including Sunshine Choir, Sunshine Choir Live, Sued For a Sample & Indian Dream. The best chewn has to be Sued For A Sample with believe it or not many samples mixed in - Go Out & Buy It !!!

The Good, 2 Bad & Hugly EP

A mixture of chewns from hard & fast to the slow & easy. The trax on this vinyl include You Know How To Love Me, DFX, Espania & New Jack.

Manix - Rainbow People EP Reinforced

4 chewns from Manix, who has this knack of churnin' out pure nastiness, including "Rainbow People", "Try to Love Me", "Let Your Mind Be Free" & "Hardcore Junglism". Another manic EP from Reinforced Records.

Every issue we will take a look at the STARS OF THE FUTURE and the DJ's who will be making you dance in the months/years to come.

This issue we look at DJ CALURBUR, real name Grafton Licorish. At 18 years of age he has already done quite well for himself. It all started at the age of 14 when he first heard a pirate radio station. So he went out & brought himself a pair of moody dexts & a mixer. With alot of hard work he got his first break on Medway Dance 98.1 FM & then started playing regular club nights. As at todays date he has played at Timescape, Technocore(Slammers), The Danceland, Enigma & many more.

DJ CALURBUR has built a reputation now as a crowd pleaser, he never fails to get you going. He was also stripped naked once by 6 girls after they heard his set. His ambition is to be respected like Carl Cox, Jack Frost & the rest. He has set his sights on a achieving this goal with in three years. DJ CALURBUR sends respect to Judith(XL), JM Easy, Terry, Jo & Woody.

Anybody intrested in finding out more about DJ CALURBUR (including agents, promoters, etc) should phone BLAZE on 0992-444006 and we will put him on to you...

To all you up and coming DJ's - give us a bell - we do not act as agents !!!
